

Thru-beam sensor ML300-P-6m-RT/59/103/115

- Miniature design
- Easy to use
- Visible red light
- 45° cable connector

Thru-beam sensor

Function

The ML300 series has a robust miniature housing and all the standard functional principles. Of particular note are the sensors with analog output, which return a value proportional to the distance. The 45° plug/cable connection ensures flexible mounting. An LED indicates a weak signal, e.g. due to dirt.
