

Probe tip adapter

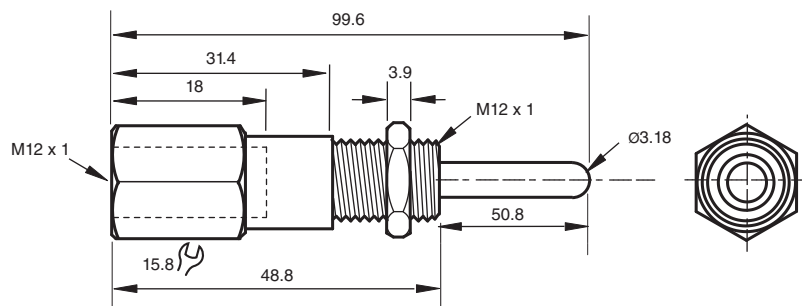

PTA-12-50

- For space-critical applications
- For use with 12 mm diameter sensors

Probe tip adapter

Dimensions

Technical Data

Mechanical specifications

Material	Stainless steel
Note	Probe Travel For activation: 0.13 - 0.38 mm Maximum: 1.93 mm

General information

Note	Use a 12mm sensor with a standard "shielded" sensing range (Sn=2mm) for best results.
