## Compression Fitting

### For Temperature Sensors

#### CF-P-3-N1/8-A4

- Compression fittings for direct mounting of TP temperature probes
- PTFE compression fitting
- For probe with 3 mm diameter
- Process connection 1/8" NPT male thread

#### General description

With compression fittings, probes can be mounted directly where they are needed and they can be immersed as deep as wanted. Through direct contact with the medium, they react immediately to temperature changes.
