

Accessories  
Spring Arm for Encoders  
For Solid Shaft Encoders  
RA-SAB-5-20

|      |             |
|------|-------------|
| Type | RA-SAB-5-20 |
| ID   | 100038292   |

- For encoders with a measuring wheel
- For small solid-shaft incremental encoders with 36.5-mm and 40-mm flanges
- Recommended contact pressure 5 N — corresponds to 6.5 mm of spring travel
- Maximum contact pressure 20 N
- Material: Aluminum
