

Accessories

Smart Plug

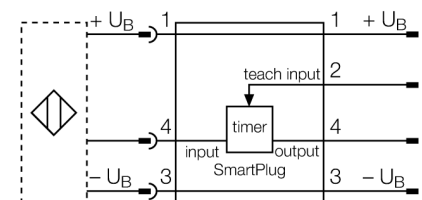

Rotation Speed Monitor

SPF1-AN6X

- multifunctional adapter for connection to standard sensors
- Degree of protection IP67
- 4-pin M12 x 1, female connector
- 4-pin M12 x 1, male connector

Wiring Diagram

Functional principle

The SmartPlug SPF1-AN6X monitors the frequency of incoming signals. If the actual frequency falls 5 % below the programmed frequency, the output of the SmartPlug is activated.

Type	SPF1-AN6X
ID	A0602
Operating voltage	10...30 VDC
Output function	4-wire
Insulation class	□
Dimensions	60 mm
Housing material	Plastic, PBTP
Ambient temperature	0...+60 °C
Protection class	IP67
